

## OUR STORY

# Professional Affiliations

Our clients and peers know us as leaders in the corporate world with a top-tier reputation. The same is true of our involvement in our civic, charitable and professional communities. We do more than just join. We lead.

We strive to become officers, board members and committee chairs wherever we serve. This level of involvement benefits our clients by enhancing our network of resources (including international accounting firms); strengthening our leadership skills; keeping us current on the most recent and anticipated changes in business, accounting and the legislative and regulatory environment; and enabling us to advocate for positive change.
